CYCLING THROUGH ENGLAND.

Only a few cyclists boarded the excursion which left the First Presbyterian church at 8 o'clock last evening for a trip through Old England on a bicycle under the able guidance of Dr. E. P. Hill, of Portland. However the entertaining and instructive features of the lecture were not in the least diminished by the small attendance. The excursion covered 900 miles on England soil, embracing many points of interest and the audience only regretted having the lecture come to a close.

## PLEASANT GATHERING.

Miss Mabel Bean pleasantly entertained a few friends at the home of Chief Justice R. S. Bean last Tuesday evening. Card playing was indulged in, interspersed with pleasant conversation and happy amusements, such as make the evening seem only too short. A neat luncheon was served with the assistance of Mrs. Bean. Among those present were Mr. and Mrs. A. E. Strang, Mr. and Mrs. W. Smith, Mrs. R. S. Bean, Miss Mabel Bean, Miss Mae Carpenter, Miss Maude Rundlett, Messrs. P. C. Patterson, C. H. Cusick, and C. V. Johnson.

## The Great Tyndall.

Next Friday and Saturday nights the great, the imperial Tyndall, the high priest of occultism, will hold the boards at Reed's opera house, this city, where he will appear in his startling mystery "Psycho Somnambulism" and demonstrate to the people of Salem his mastery of psychology and wonderful familiarity with ghostland. He has entranced and enthralled the crown heads of Continental Europe and great Britain and the best people of this mighty republic are doing willing homage to his God-like power. Wherever he goes he is the center of attraction and the learned of the land magnify and glorify his name. This is an opportunity that rarely comes to the citizens of Salem and they should not fail to take advantage of it. See advertisement in another column.

## County Court Work.

The principal business transacted was that of awarding the contract for the construction of two bent bridges over Brush creek and Drift creek, between Howell and Silverton. The first named structure is to be 228 feet in length and the latter one 300, making a total of 528 feet to be built. There were several bidders, each of whom submitted different plans and estimates, J. E. McCoy being the lowest, however. His proposal was for 99 cents per lineal foot.

Saloon licenses were granted to H. J. Bellarts and A. J. Lambert, of St. Paul. The former was for the right to sell beer, while the other permits the disposal of spirituous and malt liquors.

A CURIOSITY.—At J. G. Wright's grocery can be seen a wonderful curiosity. It is an egg within an egg, and was produced by one of Robt. Halley's white Pekin ducks, out near the Liberty postoffice. The outside egg is the size of an ordinary goose egg, within this is a perfect egg with a hard shell surrounded by a yolk, which has been blown out, leaving the small egg plainly visible within the larger shell. It is certainly an unusual occurrence.

## POLITICAL NOTES.

Progress of the Campaign in the Different Parties.

Hon. Thos. H. Tongue, with what the official organ calls "his retinue," arrived at 2 o'clock, and was introduced by Ed. T. Judd.

The Republican picnic at Aumsville Wednesday was quite largely attended. The farmers who attended brought out capacious lunch baskets and enjoyed family picnics.

The Turner band played well until the tent fell. That seemed to knock all the music out of some of the boys. Tongue went on to Jefferson in the evening.

John Carson, the Republican candidate for district attorney, made a short address after dinner, when the platform had been rebuilt. The whole incident passed off good naturedly.

The Aumsville quartet, led by Ed. Judd, sang a number of comic songs at the expense of "The Thirty," the silver Republicans. The Populists have a meeting on the same grounds Tuesday, May 12, when General Weaver speaks. It will be a picnic meeting, forenoon and afternoon.

Before noon Hon. C. B. Moores talked nearly an hour on the history of the Republican party and in denunciation of the Cleveland administration. Mr. Moores pictured the horrible condition of the farmers and laboring classes. He has become quite a calamity howler and Elder Barkley congratulated him on his conversion to Populism. There was no room on the program for Barkley, and not much on the platform, which fell down with a crash in the midst of Moores' argument, eliciting a great deal of applause and laughter.

## That \$25,000 Farm.

The governor, secretary of state and treasurer have returned from Eastern Oregon. As a state board they visited the proposed site for the branch insane asylum at Union, and the portage railway at the Cascade locks. No official action was taken, the object of the board's visit being to see that the state's interests at these points do not suffer. The farm purchased for the branch insane asylum is in the hands of J. A. Wright, who cashed the \$25,000 warrant purchase money, which the treasurer is now enjoined from paying.

NEW JUDGE WANTED.—There is presented a petition with 117 names to have the county court appoint a new judge of election for Labish precinct in place of Sam W. Jones of Gervais precinct. It is claimed Mr. Jones is not a resident of Labish precinct, and hence there is a vacancy.

ILLUSTRATIONS.—The Illustrations held a large and well attended meeting last night. A number of members who are out of town were taken off the resident list. A day was also set for a whist reception to the ladies.

## THE LANE CANVASS.

Morehead's Lying Excuse for Taking Ten Dollars a Day.

A few of the legislative candidates met the people of Coburg in discussion of the political issues of the day. The largest audience ever attending a county canvass meeting at that point was present. Probably this was the result to some extent of the stormy weather preventing farmers from attending to their work.

Baker opened the ball in a twenty-five minute speech. He declared in favor of free and unlimited coinage of silver. In favor of the initiative and referendum. Claimed that tariff legislation would not better times as under the McKinley high tariff and during the last years of Harrison's administration the treasury had been emptied of its gold and that Wall street financiers had been interviewed as to the prospect of floating a bond issue. Harrison went out leaving an empty treasury and the Cleveland administration was compelled to issue bonds. If Harrison had been re-elected he could not have done otherwise.

Driver took the stand and as is characteristic with him scattered like a shot gun. Was not in favor of

free and unlimited coinage of silver, but straddled the question by favoring shutting out all silver of the world except our own. Favored a tariff for protection, told a few of his thread-bare stories, omitting the celebrated bean story, however.

Henry Mathews made his maiden speech in behalf of Democracy. Was in favor of coinage of silver of American mines. Would labor for measures in the interest of the people, if elected.

Mr. Moorhead, Republican candidate for re-election to the legislature, was opposed to the free coinage of silver. He took up most of his time explaining his record in the legislature. Baker asked him about house bill 33 which was introduced by Moorhead providing for a committee of three to correct the journal after adjournment. He stated that he introduced the bill at the suggestion of Hofer of the Salem Journal. That it was a soft job and if re-elected would like to have it again. That there were about a dozen members with similar resolutions in their pockets but he got ahead of them and brought the money up to Lane county. He received \$240, being paid \$10 a day for 24 days' work. Two clerks were employed at a very liberal per diem to do the work of the committee but Moorhead said he was not responsible for introducing a bill by which he was paid \$10 a day for nearly a month—Eugene Guard, May 6th.

[Moorhead's lying excuse that he fixed up the journal revision job at \$10 a day "at the suggestion of Hofer," will not go down. Mr. Hofer told Mr. Moorhead that he would not serve on a committee to revise the journal at \$10 a day, that it was too much, and that the speaker was always made a member of the committee and two members from Marion county could not well get on a committee of three.] Ed. JOURNAL.

Two Lives Saved.  
Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at Fred P. Legg's drugstore. Regular size 50c and \$1.
